

January GMS of the Month

Mountain View Elementary

Principal: Lindsay Dickinson

School Coordinator: Wendy Passey

Mentor: Lisa Mitchell

One of GMS goals is to make faculty, staff, and parents aware of GMS policies. We would like all schools to put their GMS policies on the web. Mountain View was one of the first GMS to do this. We would like to thank Mountain View Elementary for their dedication to the GMS program and our goals.

See Mountain View's GMS policies on-line.

Mountain View Elementary has formed a committee to help them implement the GMS program. This committee meets regularly and has been instrumental in helping Mountain View to be a successful Gold Medal School.

The faculty, staff and students at Mountain View are also very excited about accomplishing the GMS criteria. This year, they are walking around the world, with a stop in Torino, Italy in February for the 2006 Winter Olympics. The GMS committee has helped by putting together many fun activities for the students along the way.

Mountain View is also involving families in GMS by sending each family a physical activity conversion chart. It is laminated and has a magnet on the back so each family can put it on their refrigerator as a reminder. This chart will help families convert their physical activity into miles walked, helping them achieve their goal of walking around the world.
